

Camera and Photos Continued from Session 6

Task 1. Revisiting Last Week

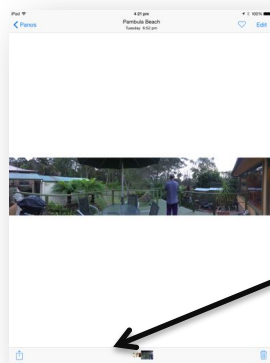

- **Revisit last week's session** by looking at the Camera Application and looking at choices you have in that application. Refer to the notes in the **small handbook** we have prepared for you.
- Use the **photo choice** to take a photo of someone in the group.
- Use this photo for the next tasks in this lesson

Task 2. Editing a photo

- Tap on the the photo you just taken to open to the right hand top corner
- Tap on the edit button in
- Select the cropping tool. If you are unsure of which is the cropping tool refer to the **small handbook** (page 2)
- Note that there is a white square with corners around your photo. Drag the corners in, until you have a shape that creates a better image.
- Save your new photo by tapping done in the top left hand corner.
- Return to edit and this time change your photo from a coloured photo "Noir"
- Tap done

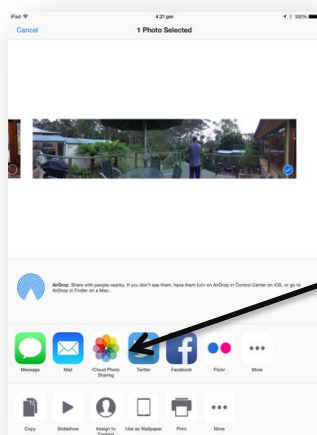

You should now have a cropped photo which now black and white on ready for the next

Task 2. Mailing a photo from within the photo application

- Look at your photo you will see a small box with an arrow

- Tap this box and number of options will appear. Select the mail icon

- **Note:** When the email format appears you can **type the address of your contact** straight into position **(1)** and you can **add text to your email**. For this exercise, type your own address into this section as you are going to send this email to yourself for practice.
- Before pressing send. Tap on the **Image size (2)**

- Reduce the size of your photo to 14.9 KB to send to yourself
